

How to Host an AYCE Workshop

Step One: Gather an audience

An AYCE Workshop is best given to a group of young people aged (13-18). Think of where a need for this material might lie, be it for a school club, youth group, or boy/girl scout troop.

Step Two: Pick a format

Will your workshop be in person or online? Consider your group when making this decision.

Step Three: Find a guest speaker

Find an individual who is highly engaged in your local community and would be able to give a presentation that would inspire your audience to be more active in your local community. Send them an email, you never know who might be interested!

Step Four: Schedule a time

Schedule a time that works for you, your group and your guest speaker.

Step Five: Practice

Practice running through the slides and memorizing information from the script.

Step Six: Present!
